

Pre-Admission Testing

You may be required to have pre-admission testing. This may include blood work, urinalysis, an EKG and, if necessary, a chest x-ray. Most of your testing will be done in our Ambulatory Testing Center (ATC). We have made an appointment for you. Call the ATC at (908) 788-6666 if you need to change this appointment. Follow the simple steps in this brochure on the day of testing.

- Report to the HMC Admitting Office on your assigned date and time.
- Bring a photo ID, and your insurance information

Medical Problems

Notify our office of any illness occurring within two weeks of your scheduled surgery. You are undergoing elective surgery, and we prefer you to be basically healthy before undergoing surgery and anesthesia.

Illnesses include a cold, flu, upper respiratory tract infection, rash, skin abrasion, insect bites or pimples near your surgical site.

If you do have a medical problem, then we may require a written medical clearance prior to surgery from one of your medical doctors.

Additional Information

- Please make arrangements for your transportation home upon discharge. You will not be permitted to drive yourself.
- For your surgery, remember to bring any appliances (crutches or sling, for example) with you upon admission.
- Fingernails must have no nail polish, and must be thoroughly cleansed.
- Please shower or bathe before you come to the hospital.
- Please check with your insurance company to see if you require a second opinion or pre-certification. Failure to do so, if required, will most likely affect the benefits the insurance company will cover.
- Please note you will also receive separate billing for the surgical facility and anesthesia services.
- Please be aware that you will receive a bill from an assistant surgeon if one is required for your surgery.
- Please read your post-op instruction sheet before surgery. Ask your surgeon any questions on the day of surgery.

PLEASE REPORT TO THE
HUNTERDON MEDICAL CENTER'S
2100 WESCOTT DR. FLEMINGTON, NJ 08822
ADMITTING OFFICE
FOR YOUR TESTING
ON THE DATE AND TIME BELOW

YOUR SURGERY HAS BEEN SCHEDULED FOR:
